**Exclusively for Juniors**

It's never too early to begin your college search. You may be just beginning to make some decisions about attending college. Will you be the first child in your home to go to school? Do you know what your options are? Have you considered how you will pay for college? The college process may seem very overwhelming, so it's not too early to get a jump start on your search.

Beginning your search early on will make the big decisions seem a lot easier in the end. You want to choose a school that is the right match for you. It's important to make sure that the schools you consider offer the major you are considering. If you are undecided, you'll want to select a school that offers a variety of programs. Junior year is a great time to begin gathering information. The big decisions come during your senior year.

**All about AU**

College will become your "home away from home" for four very important years. You will want to make sure that you choose the right "home" for you. A way to do this is to look at a variety of campuses to see where you fit in best. It is never too early to begin your college search. Choosing the right college is one of the biggest decisions you will make in your life.

At AU, we really are “family”. Aurora University is home to students of many different backgrounds and experiences. The biggest reason students choose AU is for its small size and personal atmosphere. At AU, professors know students by name and learning in the classroom is highly interactive. Because of the small campus atmosphere, students are able to get involved and become known on campus. We offer many student organizations and participate in Division III intercollegiate athletics. For those students who are interested in performing, we offer opportunities to audition for the AU Chorale or to participate on stage as well as backstage for a number of theatre performances. Those students who excel academically and meet requirements can qualify to participate in Aurora University’s Honors program.

Do you have questions for a current AU student? Want to learn more about our students and what they are involved in? Add AUStudent06 to your AIM buddy list. A student is available Monday-Thursday from 5-8p.m. (CST)
