

Welcome to Sodexo Catering Services!

This Catering Guide has been developed to provide students an affordable way to provide snacks, meals and other dining services at student-sponsored events. If you are a CA planning for a floor program, a student organization leader preparing for an on-campus event, or any other student in the process of developing a student-based program, this guide is for you!

Please remember that this Catering Guide only represents the starting point. If you have an idea for an event and you do not see it in the guide please ask our catering staff.

Paper service is included with all the items listed. Non-disposable equipment will be necessary for service on certain items. Equipment is provided at no additional charge, and must be returned within 24 hours of the event. Damaged or lost equipment will be charged to your account at replacement cost.

Special service and additional food items are available. Please provide 72 hours notice for food requests.

For additional information, please contact:
